Opening mission

You are the town’s animal rescue team. One of you works on the roof and the other works on the street. Keep your private pages facing you and talk freely. Move counters on the maps and the shared board.

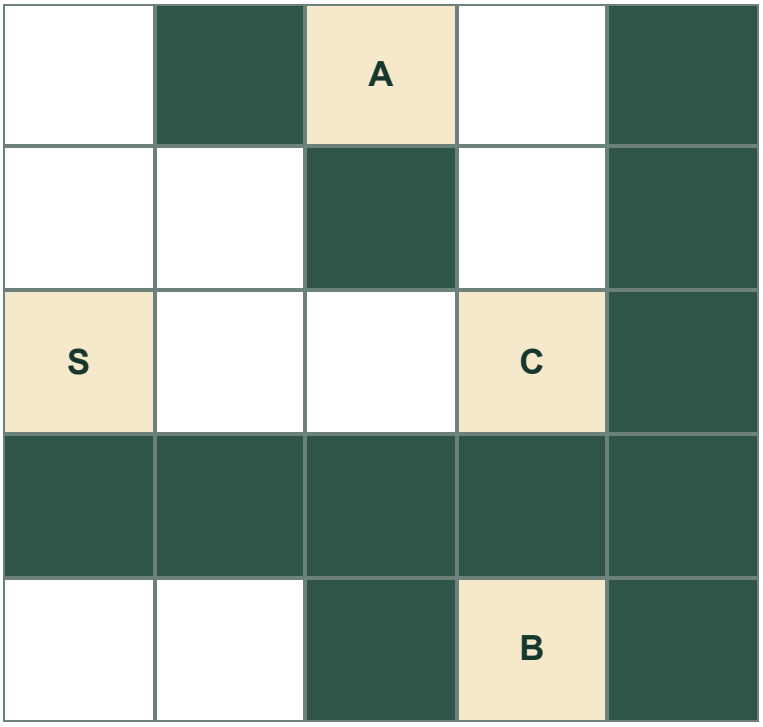

Print single-sided at actual size. Bring three small counters and a pencil. S is the start; F is the finish. Dark cells are walls. Keep each answer page folded away until you need it.

AI-assisted text and illustration. For personal use.

Mission 1 · Cat

Rescue the duckling

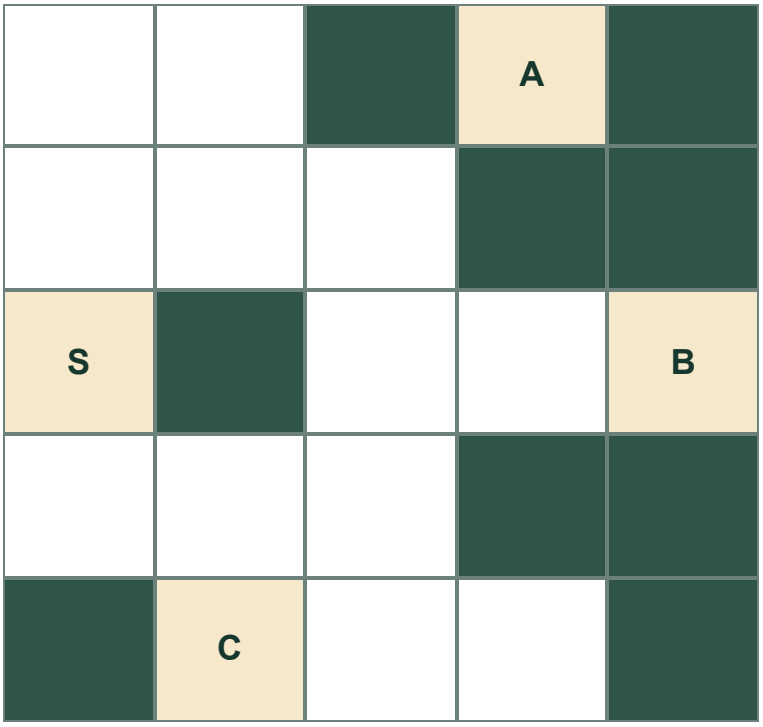

From S, step one cell up, down, left or right. Dark cells are blocked. Find all reachable lifts A, B and C without showing your map. You can walk through lift markings.

Mission 1 · Dog

Rescue the duckling

From S, step one cell up, down, left or right. Dark cells are blocked. Find all reachable lifts A, B and C without showing your map. You can walk through lift markings.

Mission 1 · Shared board

Rescue the duckling

Agree on a lift both can reach. Write its letter. Start the duckling counter on Roof and move both role counters to the lift. Dog taps Basket and says “Ready”. Cat moves the duckling from Roof to Basket. Dog brings it down to Street and then to Shelter.

Roof	Basket	Street	Shelter

A B C → _____

Mission 1 · Hint and answer

Rescue the duckling

Find two lifts each and compare your lists. Cat can reach A and C. Dog can reach B and C. Call C.
